Subject: Informed consents Louisiana State University

Dear Amy,

Attached are informed consents for your review. I have made comparisons to the approved informed consents of Covance and found only minor discrepancies, which I've corrected as marked up. In addition, some minor changes are found in the order of sections and headings, e.g., combining "Invitation" and "The purpose of the study" into one section : "Purpose of the study". I think we can leave this to the customary of the site.

Best regards,
